# "Master your craft, and transform every coffee interaction into an extraordinary experience."

At PUQ, our core mission revolves around the barista. We actively listen to the market, crafting tools that support—not replace—the unique skills of coffee professionals. Our products are designed to empower baristas, enhancing their craft while taking care of the complexities of coffee preparation.

By merging innovation with traditional craft, PUQ tools streamline your workflow, increasing consistency and speed while reducing the physical strain of coffee making. This allows you to focus on what truly matters: creating memorable experiences. With PUQ, you can confidently let go of uncertainties like whether your tamp is perfect or your

grounds are evenly distributed. Instead, you can dedicate your attention to ensuring every guest leaves with a smile, touched by the exceptional coffee crafted by your hands.

Embrace the art of coffee making with PUQ, where every tool is an ally in your journey to excellence. Our technology ensures that you can pour your passion into every cup, confident in the quality and consistency provided by your PUQ equipment.

Master your craft, and transform every coffee interaction into an extraordinary experience.

# A tool that goes where you do

## THE STANDALONES

The main difference between our standalone models is the capacity of tamps they can deliver per week. So pick a tool to match your daily output, and design a bench setup to suit your preferred workflow. Choose PRO if you want to bring your coffee game to new heights.

# Teaming up with many more grinders

## THE BRACKETS

There are many grinders out there and you might not want to sacrifice ANY of your precious counterspace. No worries, with a PUQ PRESS Bracket you can combine PUQ PRESS with a whole new set of grinders. Use it in combination with PUQ PRESS M3, M4 or M5 depending on the type of grinder you want it to hold.

# The new wave of coffee distribution

## THE NAVIGATOR

Master consistent espresso every time with our advanced automatic distribution technology, allowing you to focus on creating unforgettable coffee experiences for your guests.

# PREP

### ONE TOUCH OPERATION

Say goodbye to the guesswork and inconsistency of manual coffee distribution. With a single touch the Navigator automatically distributes your coffee perfectly, enabling advanced precision, enhancing the quality and flavor of every cup.

### STREAMLINING YOUR WORKFLOW

With its innovative in-line functionality the Navigator integrates grinding with precision distribution into one fluid motion, accelerating your workflow while distributing your grounds for optimal extraction.

### A PATH TO PERFECTION

The Navigator's unique needle configuration disrupts potential channeling before it gets the chance, guaranteeing a full and even extraction with every shot.

The result is a flat bed of coffee grounds in your portafilter, the foundation for unparalleled espresso shots. This crucial prep stage aligns perfectly with the precision of PUQ PRESS, making sure that when you tamp, it's all about applying the ideal pressure, not correcting the coffee bed.

CAPACITY	500-800 cycles, mode dependent
WARRANTY	2 year
COLOURS	Black, White
DISTRIBUTION PROFILES	STANDARD - SPEEDY - MANUAL
DELAY MODE	Yes
NEEDLE OPTIONS	18-20 gram basket 20-22 gram basket
